LIFE IN THE NORTHWEST.

If you have any idea of changing your location—go into the northwest, where life is worth living.

It is the coming empire of this country. Climate and elevation are found in great variety and will never be as low priced again as it is now. For raising fruit and grazing no portion of our country equals it. Irrigation makes the farmer independent where irrigation is practiced and the finest fir gable part of our lands are in Montana and Washington. The towns and cities are growing rapidly in the Northwest.

Let me know what you want and we will try and help you. There are all sorts of places and kinds of land in the Northwestern states through which the Northern Pacific runs. Don't wait until it is too late to go. Low settlers rates are in effect during Sept. and Oct. Write to me where you want to go and I will tell what it cost.
